

We are a science-led global healthcare company uniting science, technology and talent to get ahead of disease together. We're setting out a new ambition for creating value for impacting the health of over 2.5 billion people over 10 years, globally. In our biopharmaceutical business, we prevent and treat disease with vaccines, specialty and general medicines.

In Italy GSK has its commercial headquarter in Verona, a research center dedicated to vaccines (Siena), two manufacturing sites (Parma, Rosia), an artwork and packaging center (Verona) all of them working on a global scale. ViiV Healthcare, 100% dedicated to HIV-AIDS, is based in Verona as well.

Find out more on www.gsk.it, GSK Italia on LinkedIn and, if you are an healthcare professional, on www.gskpro.it.
